

Sibelmed

Audiometric Test Booth S40

SIBELMED's insulated booths have been designed by SIBEL's R+D department, using the newest sound-isolation materials. This feature has allowed to reduce weight with great isolation, functionality and beauty too. The external surface is made of washable panels. Inside it's pleasantly illuminated and very comfortable. Its sophisticated design allows a fast and easy setup performed by no specialized worker.

The design process, manufacturing and after sales service have been performed in accordance with ISO 9001 Quality Standart and the 93/42/CEE Medical Device European Directive.
